The **Artech Android Barebone PC** is designed specifically for the needs of manufacturing environments, made from high-quality industrial components with an integrated design. Its compact design and thin dust-protected metal body make it an ideal price/performance option for manufacturing settings.

MAIN ADVANTAGES

- **Industrial Durability:** Uninterrupted operation even in harsh conditions.
- **Smooth Performance:** Optimized for reliable operation.

KEY FEATURES

- **Price/Performance Product:** Offers cost-effective solutions.
- **Compact Design:** Saves space and facilitates easy integration.
- **Thin Industrial Dust-Protected Metal Body:** Ensures long-lasting and durable use.

TECHNICAL SPECIFICATIONS

ORDER CODE

CPU	: RK3566 - SoC Quad-core, up to 2.0 GHz
PSU	: 12 VDC (Adapter Included)
RAM	: R2
Wi-Fi	: Optional

SYSTEM

CPU	: RK3566 - SoC Quad-core, up to 2.0 GHz
Cache	: N.A.
Memory	: 2GB
Video RAM	: N.A.
Control	: N.A.
Watchdog Timer	: Support
Android OS	: Android 11.0
Processor	: RK3566 - SoC Quad-core, up to 2.0 GHz

INPUT/OUTPUT

Serial Port	: 1 x RS-232/422/485
Parallel Port	: N.A.

USB Port	: 2 x USB 3.0
KB / MS	: N.A.
LAN	: 1 x Ethernet 10/100/1000 BaseT
Wireless LAN	: 802.11 b / g / Bluetooth(Optional)
Audio	: Jack Tipi Mic In / Stereo Line Out
Expansion Slot	: N.A.

FEED

Input	: 12 VDC
-------	----------

EXTRA VIDEO OUTPUT

Type	: HDMI
Max. Resolution	: 1920 x 1080 @ 60 Hz

MECHANICAL & ENVIRONMENTAL FEATURES

Working Temp.	: 0 ~ 50 °C
Storage Humidity	: 5 ~ 95% (Non-Condensing)
